

The background of the slide is a faded, semi-transparent image of a fire scene. It shows a red fire truck with "FIRE-RESCUE" written on its side. In the foreground, several firefighters in yellow protective gear are working. One firefighter is holding a large white fire hose nozzle that is spraying water. To the right, there is a large fire with bright orange and yellow flames. The overall scene is hazy and serves as a backdrop for the text.

Photo Album for Winslow Fire Department, ME Job 34817 August 14, 2020

This week your cab, PUC pump, and torque box were installed on your chassis while your body completed the paint process. Next week your apparatus may be placed in a staging area and remain there until your body has trim and wiring installed. This process may begin next week.
